

# foster + freeman training trainer profile

*Foster + Freeman has a team of fully trained and experienced personnel available to carry out installations and provide training on the company's range of products either at our offices in Evesham or at the customer site, whether in the UK or throughout the rest of the world. They also attend exhibitions and conferences, and provide equipment demonstrations.*

## **F.L. "Jim" Lee, Jr.** **Handwriting Examination**

Jim Lee has 30 years experience as an examiner of questioned documents with the U.S. Army Criminal Investigation Laboratory (USACIL), State of Florida Lottery and in private-practice.

He earned his Bachelor of Science (BS (Cum Laude)) and Master of Science (MS in Criminal Justice) degrees from Troy State University, Troy, Alabama.

He received his training in questioned document examination at USACIL and retired in 1992 after serving as the Division Chief of the Questioned Document Division, USACIL, Camp Zama, Japan. His rank at retirement was Chief Warrant Officer-4, culminating a career of more than twenty years as a Special Agent with the US Army Criminal Investigation Division Command. He then served ten years at the State of Florida Lottery as a Senior Special Agent and Forensic Document Examiner and Chief of Facilities Security, prior to his retirement in 2002. In 2003, after serving as the Director in the Forensic Services Unit of West Valley Police Department, West Valley City, Utah, he joined the Foster & Freeman team as a Technical Sales Applications Engineer. He has also established his own private practice in forensic document examination, Summit Forensic Document Examination Laboratory, Liberty, UT.

During this time he has also successfully completed courses run by the U.S. Secret Service, the F.B.I., the U.S. Public Safety Institute and Rochester Institute of Technology (R.I.T.) in subjects as diverse as typewriter identification, printing techniques for questioned document examiners and process color for flexography. These qualifications, together with the aforementioned practical experience, have led to him being an expert in all forms of questioned document examination and comparison, specialising in handwriting.

These include:

- Handwriting, hand-printing, typewriting, printing devices and other types of mechanical impressions to determine identity or genuineness
- Examination of inks, papers and materials to determine genuineness, integrity, security, origin and validity of date of preparation
- Restoration and decipherment of charred documents, obliterated, mutilated, altered and impressed writings.

He is certified by, and a Diplomate of the American Board of Forensic Document Examiners (ABFDE) and a past Director of ABFDE, a member and past-Secretary of the American Society of Questioned Document Examiners (ASQDE), a member of the American Academy of Forensic Sciences (AAFS), a member of ASTM International, originally known as the American Society for Testing and Materials (ASTM), a member of the Utah Division of the International Association For Identification (IAI) and its parent body the International Association for Identification, a member of the Midwestern Association of Forensic Scientists (MAFS), a Charter Member of the Japan Division of the IAI, and past-President and Charter Member of the Southeastern Association of Forensic Scientists (SAFDE).
